key features & benefits

protecting your digital cargo

large convertible 17”

hybrid laptop protection

Let’s be honest, just because you use a 17” laptop, doesn’t mean that you need a massive bag to go with it. Don’t carry the kitchen sink; just take your laptop and other necessities in STM’s **convertible.**

If you need a slick and simple way to carry your 17” laptop and some notes, **convertible** is a shoulder bag. If you fill it full of life’s essentials, it quickly converts to a backpack!
